Scenarios

Scenario: GET single cart by id (97d4b8954f5d0a7824335b7b3d4cc5694fdbdbdee4fad1479b42eca71e770a37.html)   ❯

Given I set GET cart endpoint
When I send HTTP request for GET the Cart
Then I receive code build 200
And I verify that Cart can be accessed

Scenario: GET carts with limit number (b910416ab5ab322874c0c8abd8419b0df10e8ff3627ea61d4b95d04e0f5226e1.html)   ❯

Given I set for GET cart endpoint
When I set the limit desc for GET the cart
Then I receive 200 code response
And I got the carts with limit I set

Scenario: Short Result by Desc GET Cart (f3d860f7340876f2c8508a5431fcbd4703128804b93ea586fa6a0306d27f198fb.html)   ❯

Given I set GET api endpoint for limit view
When I send request with Limit Get
Then I receive the cart list with desc
And I got verified code success 200

file:///D:/Intellj/REST API/fakestoreapi/target/site/serenity/3670c24883efba20611f2f3e3440707ea370S4b99f0e1f61f235c4bd242f6e804.html

Scenario: PUT new add product for any cart (a42e1b4d5e0acebf8c25b584012463477e1947c0da0dbd3d3c6496ecb7fdc5e.html)

Given Set the cart PUT api endpoint
When I send request PUT to add product cart
Then I receive Http response 200
And I try to access that cart update
